FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

In the Matter of )  
 )  
Amendment of Section 73.202(b) ) RM-  
Table of Allotments, )  
FM Broadcast Stations )  
(Turrell and Wilson, Arkansas) )

To: Chief, Policy & Rules Division  
Mass Media Bureau

**FURTHER SUPPLEMENT TO PETITION FOR RULE MAKING**

Pollack Broadcasting Company ("PBC"), by its attorneys, hereby supplements its Petition for Rule Making in the above-captioned matter by the report of a development which should finally pave the way for immediate action on PBC's petition.

The city of license of FM radio broadcast station KAFW, owned by PBC, is now Wilson, Arkansas. PBC's petition proposes that Channel 234A, the frequency allotment occupied by KAFW, be moved from Wilson to Turrell, Arkansas. This change would give Turrell its first local transmission service.

The PBC petition, as initially filed, also reflected the petitioner's intent to have the city of license of AM station KOSE changed from Osceola, Arkansas to Wilson, in order to ensure that Wilson would retain at least one local transmission service.<sup>1</sup> Although PBC took all possible steps to effectuate that change, the Policy & Rules Division was unwilling to proceed with the amendment to the FM Table of Allotments necessary to implement the FM side of this project. The staff of the Policy & Rules Division indicated that its reluctance to solicit public comment on PBC's proposal to move KAFW to Turrell stemmed from the staff's concern that adoption of the PBC proposal risked depriving Wilson, Arkansas of its only service.

As PBC reported on October 24, 1996, in its Supplement to Petition for Rule Making, the Commission's Audio Services Division granted the application for a change in the city of license of AM station KOSE from Osceola to Wilson, Arkansas on October 9, 1996. Unfortunately, Newport Broadcasting Company (the new licensee of KOSE) was concerned with an error on the construction permit issued by the Division. Therefore, it did not file the

---

<sup>1</sup> At the time the Petition was filed, PBC was the licensee of KOSE(AM) and KOSE-FM, which were both licensed to Osceola, Arkansas. Effective August 31, 1996, pursuant to Commission approval, the licenses of stations KOSE(AM) and KOSE-FM were assigned by PBC to Newport Broadcasting Company.

application for a license to cover that permit until this spring. However, the Audio Services Division kindly expedited the processing of the license application.

Thus, PBC is pleased to report that the license application was granted yesterday. A copy of the new license for KOSE(AM) is attached hereto for the convenience of the Commission's staff.

Thanks to the issuance of the new license for station KOSE(AM) by the Audio Services Division, the contingency previously perceived by the Policy & Rules Division in PBC's rule making proposal has been eliminated. Now that the KOSE(AM) license application has been granted, Wilson has a second local transmission service, yet Turrell still has no service at all.

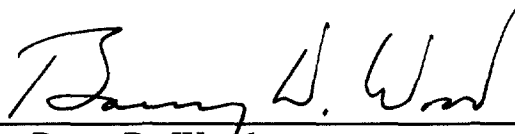

In order to rectify this situation, PBC urges the Policy & Rules Division to make PBC's plan the subject of a notice of proposed rule making and, following public comment, to issue a report and order changing the city of license of KAFW to Turrell, Arkansas.

PBC hereby reiterates its commitment to file an application on FCC Form 301 to confirm the change in city of license for KAFW from Wilson to Turrell immediately following the issuance of such a Report and Order. Indeed, PBC has already found the transmitter site for a facility covering

Turrell with a 70 dbu or better signal, and has prepared the appropriate engineering study. Upon the grant of that Form 301 application, PBC will promptly construct facilities and will file a covering license application within ten days following the completion of construction.

Respectfully submitted,

POLLACK BROADCASTING  
COMPANY

☒ Non-directional antenna: current 0.173 amperes: resistance 532 ohms.  
☐ Directional antenna :

10. Hours of operation: Unlimited.

11. Conditions. . . . . :

Subject to the provisions of the Communications Act of 1934, as amended, subsequent Acts, Treaties, and Commission rules made thereunder, and further subject to conditions set forth in this license,<sup>1</sup> the LICENSEE is hereby authorized to use and operate the radio transmitting apparatus herein described for the purpose of broadcasting for the term ending 3 A.M. Local Time

June 1, 2004

The Commission reserves the right during said license period of terminating this license or making effective any change, or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period.  
The licensee is issued on the licensee's representation that the statements contained in the licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.  
This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended. This license is subject to the right of control by the Government of the United States conferred by section 606 of the Communications Act of 1934, as amended.
